

Voluas Automatic Pet Feeder User Manual

Getting Started

Welcome to the quick programming guide for your new Voluas Automatic Pet Feeder! This manual will guide you through the simple steps to set up and program your feeder, ensuring your pet is fed on time, every time.

Programming Instructions

Follow these simple steps to program your Voluas Automatic Pet Feeder:

1. **Enter Editing Program:** Press and hold the unlock button for 3 seconds to start the editing program.
2. **Set System Time:**
 - Press the 'SET' button to set the **hour** of the system time. The system time is your local time and must be set accurately.
 - Press 'SET' again to set the **minutes** of the system time.
3. **Set Feeding Time and Weight (Meal 1):**
 - After setting the system time, press the 'SET' button to start setting the feeding time for the **first meal**.
 - Press 'SET' to set the **hour** of the feeding time.
 - Press 'SET' again to set the **minutes** of the feeding time.
 - Press 'SET' again to set the **weight**. The weight can be set from 0-40 portions, with each portion being approximately 7.5g.
4. **Set Feeding Time and Weight (Meals 2-4):**
 - For the second, third, and fourth meal settings, repeat step 3.

Important Safety Notes

- There is a **Low Battery indicator** on the left side of the control panel. When you plan to be away for an extended period, please check the battery indicator. If the light is on or flashing, replace

the batteries to prevent your pet from missing meals.

- **DO NOT** put your fingers into the machine at any time.
- This product requires **3 x D alkaline batteries**.
- Dispose of old batteries according to your local regulations to protect the environment.
- If the feeder will not be in use for an extended period, remove the batteries to prevent damage from leaking battery fluid.
- **Only use dry pet food** in this feeder. Do not add semi-dry or wet pet food.

Summary

This manual provides instructions on how to program your Voluas Automatic Pet Feeder, including setting the system time, individual feed times, and meal weights. It also included important safety notes and battery information to keep your pet safe and well-fed.
